PROFILE

I am a dedicated full-stack developer with expertise in the PERN stack, combining robust technical skills with a strong foundation in design, branding, and UI/UX. I specialize in building end-to-end web applications that are not only functionally sound but also visually impactful. Known for my innovative and detail-oriented approach, I take pride in delivering solutions that are user-centered and performance-driven. With a strong work ethic and a passion for continuous learning, I thrive in dynamic environments and am committed to contributing meaningful value through every project I undertake.

WORK EXPERIENCE

Junior Graphic Designer

TSA Media Group

Feb 2026 - Present

- Designed and produced engaging social media content across multiple platforms to enhance brand visibility and audience engagement.
- Collaborated closely with the marketing team to ensure visual consistency and alignment with brand strategy.
- Developed creative concepts and visual directions with a high degree of creative freedom while maintaining brand guidelines.

Software Engineering (Intern)

Techorin (Pvt) Ltd

Jul 2024 - Sep 2025

- Engaged in a comprehensive full-stack development training program.
- Gained hands-on experience with both front-end and back-end technologies.
- Developed skills in debugging and modifying preexisting codebases.
- Gained experience in code optimization to improve maintainability.

Junior Graphic Designer (Part-Time)

Ceylon Exchange Mentoring (Pvt) Ltd

Jun 2024 - Oct 2024

- Designed and developed engaging social media posts for various platforms.
- Collaborated with the marketing team to align visual content with brand strategy.
- Utilized design software such as Figma, Canva and Adobe Creative Suite to create visually appealing graphics.
- Contributed to brainstorming sessions to develop innovative content ideas.

Graphic Illustrator (Intern)

Techserw Labs (Pvt) Ltd

Jun 2023 - Oct 2023

- Created compelling game assets and visually appealing website visuals for the 'TechieSays Junior' project.
- Designed captivating icons tailored for the 'TechieSays Junior' website, enhancing its visual appeal and usability.
- Collaborated closely with the design team to ensure seamless brand alignment across all visual elements.
- Developed and refined digital illustration and graphic design skills to enhance project outcomes.
- Actively participated in brainstorming sessions, providing creative input to elevate project aesthetics and user experience.
- Consistently delivered high-quality work with attention to detail, exceeding project expectations.

TECH STACK

LANGUAGES

Python, Java, C#, Node JS

RECENT PROJECTS

Mappr - Final Year Project

Sep 2025 - Present

- Designed a SaaS-based web platform enabling organizers to digitally plan and manage street market layouts through intuitive, multilingual interfaces.
- Conducted user research and prototype testing with organizers and vendors to create an accessible, user-centered planning tool.
- Proposed AI-driven spatial optimization features to enhance stall placement, crowd flow, and event efficiency.

Curado UI/UX Design

Feb 2025 - Mar 2025

- Designed and prototyped the full UI/UX for Curado Art Space using Figma, delivering a modern, interactive, and professional user experience.
- Created user-friendly interfaces and crafted a custom character illustration for the platform's assistant bot icon.
- Presented design concepts that reflected Curado's brand identity and refined them through multiple feedback-driven iterations.

Graphic Design Projects

Feb 2025

- Educational course posters that effectively communicate key information with clear visual hierarchy
- Original logo designs tailored to reflect unique brand identities
- Engaging social media posts crafted to boost audience interaction and brand presence

OrderX

Aug 2024 - Sep 2025

- Developed a PERN full-stack project for a company management system, aligning with specific functional and design requirements.
- Used Postman for Backend testing and endpoint validation.
- Enhanced database design and API structuring skills to optimize data flow within the application.
- Gained experience in managing project timelines and adapting to new requirements for an efficient development process.

SLIIT UI/UX Design

Apr 2024

- Created UI/UX design for SLIIT's website, ensuring a modern, interactive, and professional user experience.
- Utilized Figma to design and prototype user-friendly interfaces, while also crafting a character illustration for the university's assistant bot icon.
- Presented and iterated design concepts to reflect SLIIT's brand identity and meet objectives.

Dilmah School of Tea UI/UX Design

Apr 2024

- Revamped the Dilmah School of Tea website as a personal project, aiming for interactivity and attractiveness.
- Employed creative strategies to enhance user experience through engaging interfaces and implementing innovative design elements.
- Independently conceptualized and executed the project, demonstrating self-motivation.
- Ensured seamless navigation and brand identity alignment with Dilmah's objectives.

Explora - Second Year Project

Sep 2023 - Mar 2024

- Led the development of Explora, a travel planning application, during the second-year group project.
- Introduced the innovative idea of combining various travel-related features into one platform, addressing the absence of an all-in-one solution in the market.
- Adapted project scope from a mobile app to a website based on supervisor recommendations.
